TO THE WORSHIPFULL JAMES HUBBARD ESQR. DEPUTY GOVERNOUR OF FORT ST. DAVID &A. COUNCIL.

WORSHIPFULL SIR & SIRS

I beg leave to Acquaint you that of the Stone roof of the Fort Gate way of the Fort the stone that serves as an Architrave to the Others Over the inner entrance of it, has Given way and is Crackd through; on the first notice of this I had a frame of Timbers put under it to prevent any immediate danger of its Yeilding any further which serves for the Present, That Mr. Baker the Gunner and myself having surveyd the work there we found a single stone Pillar for the only support on one side of the Architrave, which we did not think trustworthy for so great a Weight of stone slabs as that roof is composd of, for fear of its splintering on any side, by any shock as from firing the Guns on the adjoining curtain, or indeed by the Very Weight it seems but feeble for.

The best and Cheapest way we Conceive of securing the support of it, would be by turning an Arch of Brickwork under it and for a further security to the foundation of the Heavy roof of that Entry or Court of Guard, on one side all a long, (which though not enough to Appear, may have yeilded perhaps enough to crack that stone) It were very much to be wishd that an Open space of about 45 foot alongside it, and encompassd by a substantial Wall (already built) in a Line to Continue the range of Terrass'd Godowns along that Curtain, were Coverd from the Wet Weather, near that foundation, with a Terrass Continued at the same height with that of the Others, which has long lain Open an Eyesore to that Curtain, as well as for the Convenience such Godowns would be of, that would at the same time perfectly finish and Compleat that range of Terrassd Building as at first design'd.

Which is therefore humbly Offerd to your Consideration by

WORSHIPFULL SIR & SIRS
Your Most obedient humble Servant

Nella Tombe and Shacup Tombe Attending and Desiring Admittance were Calld in, They represented to us that Notwithstanding all the Care they can take they find it impossible to Prevent bad Debts with the Country Brokers, That one of the Chemanackpollam Brokers is run away four hundred and fifty Pagodas in their Debt of Which they have no hopes of Getting anything, that Another that brought in the Cloth for Dying is broke and Able to Pay nothing who owes them Eighty Pagodas, That four other Brokers Owe them Eleven Hundred and thirty five Pagodas, who have by the Weavers spending the Money Advancd them for Making of Cloth and runing away, Prov'd to be in ill Circumstances, and they Doubt they shall lose the Greatest Part of that Money; These Losses they represent to be unavoidable, and that the French Merchants as well as all others that provide Cloth have met with their share of them, They therefore tell us they cannot Continue to provide any Cloth for the Company if they must stand all Losses and risques for so small an Allowance as half a pagoda for a Corge of Long Cloth. They also add that it is expected the Moors after they have done with Tanjore will Visit Worriapollam, and they hear severall Moratta Horse are Coming into the Misore Country to which Salem belongs, and in both these Cases the risque of both sending up money to those places, and of what shall be in the brokers and Weavers hands there will be much Greater than Usual, which they Mention as a further reason why they Cannot Pretend to go on in bringing in Cloth unless the risques are run by the Company, or that they are Allow'd an higher premium, The Lowest was that they would be satisfyed with after a long discourse on this subject, was a Brokerage of one Pagoda ℔ Corge for their trouble and risque, This they desired We would recommend to the Honble President and Council which was Promis'd them, and Accordingly a Letter is order'd to be drawn up for that Purpose. They were Dismist. Merchants Complain of bad Debts by the Country brokers. Cannot provide Cloth longer for the Company at so small a Brokerage as half a Pagoda ℔ Corge.

—— *MARCH 1739* ——

Merchants desire a brokeage of on Pagoda ℔ Corge for their trouble & Risque. Warehouse-keeper reports the Cloth torn at the Washers the last year & what Damagd by the rains in the Monsoon. that he sell what is very bad at outcry & to keep only enough for Wrappers for 1500 Bales.

Edward Croke Warehousekeeper reporting that there was torn at the Washers Cor.
of last Years Cloth during the year, Long Cloth 69. 17 peices and Sallempores Cor.
6. 14 p^{s}. chiefly Occasion'd by the extraordinary Rains in the Monsoon, which Continued much longer than Ordinary and with little or no intermission, so that the Cloth in their hands in the begining of the Monsoon Continued wet a long time for want of a fair day or two to dry it, by which the Cloth was Considerably damag'd and more liable to be torn in the finishing the Curing it the Greatest Part of the above torn Cloth he represents are very fit for wrappers, but that some of it is so very bad that it will not serve for that use, ORDER'D that he sell at Outcry all that is very bad, and as much of the other as to leave only enough for Wrappers for fifteen hundred Bales, which we hope the Quantity of Goods that will be Provided this year will amount to.

General Letter read. We must engage our Merchants to encrease the Quantity of Cloth & permitt us to make a further Advance.

General Letter from the Honourable President and Council of the 10th. Instant read, Advising us that they have enter'd into a Contract with Gopall Chitty to furnish the Company with some Long Cloths, and as the major part if not the Whole will Come through our Bounds we must Pass it through our Mettas as Usual, They should be Glad we could engage our Merchants to encrese the quantity of Cloth here, and in order to that should it be Necessary they Permit us to Make such further Advance to them in Money, as we think Proper.

— *JULY 1739* —

We must likewise Endeavour to engage our Merchats [*sic*] to provide some fine and Medling Cloth, The fine at Pag^{s}. 75, and the Other at Pag^{s}. 45 ℔ Corge, and when we have two or three hundred Peices of each sort, to send them a few peices of both to see how it proves. Midling and fine long Cloth to be provided.

They likewise send us Musters of Soot Romals and would have us provide five thousand Peices upon the best terms we Can procure them, That the Muster is only to shew the Goodness of the Cloth, the Brightness of the Dye may be mended here. five thousand peices of soot Ramalls to be provided on the best terms we can procure them.

They have received the Companys Permiss^{n}. for our Building a New powder House According to the Plan we sent up in September 1737. We are to erect it on such a spot of Ground as is best scituated for the purpose it is design'd and not to exceed the Estimate in the Expence and Powder House to be built According to the plan sent up in Sept^{r}. 1737.

Order us for the future to Pack up all all [*sic*] our Bale Goods Ordinary as well as fine, in Wax Cloth.

Agreeable to Directions we shall pass all such Cloth as Gopall Chitty shall bring into our Bounds on Account of his Contract with the Hoñble President and Council, and as they have been pleas'd to direct us to provide some fine and Midling Cloth and Handkerchieffs, we now Agreeable to the Liberty they give us make a further advance to our Merchants of ten thousand Pagodas, Making their Advance in all thirty thousand Pagodas, Which we hope will be sufficient. Gopall Chittys cloth on Account of his Contract with the Honble President and Council to be Passed through our Bounds. A further advance made Nella Tombe & Shacup Tombe of ten thousand pag^{s}.

Our Merchants Nella Tombe and Shacup Tombe Attending were Call'd in and directed to set About providing Long Cloth fine and Midling, as near the prices Mention'd by the Hoñble President and Council as Possible of Pag^{s}. 75. for the fine ℔ Corge, and Pag^{s}. 45 for the Midling which we understand to be design'd for the price the Cloth shall stand in one with the Other when the Cloth is brought into the Bounds including the Land Custom and Dustore and allowance to the Merchants, though Afterwards when it is sorted white the Higher numbers will be Consequently more, and the Lower Number Less, this we take to be the Intentions of the Hoñble President and Council but should we be mistaken therein to request they will be Pleas'd to set us right in their next favour, As we believe it will be the best way to agree with the Merchants upon Brokerage for these Goods as well as the Salem and Ordinary Cloths they are now discours'd on that head, and they insist upon one Pagoda ℔ Corge for their Allowance on the Middling, and one Pagoda and three Quarters ℔ Corge for the Fine, which is the Lowest they say they can take, They Assure us the risque in trusting the Weavers and Country Brokers for the fine Goods is much Greater than for the Others, and the Ballances that will Necessarilly [*sic*] be in their hands will be more dificult to be got in, so that they Cannot without Great Hazard of Loosing hereby undertake to bring in the fine Cloth at a Lower Brokerage. They are Directed to set providing Long Cloth fine and midling. the terms insisted on by the merchants for Brokerage on the fine and midling Cloth.

They are likewise Directed to set about Providing five thousand Peices of Soot Romals as Directed from the Presidency, but do not as Yet come to any agreement for the Price of them. Are likewise order'd to provide 5000 Ps. of Soot Romalls.

As the Monsoon is approaching and the Great scarcity there is of Chunam here at present, we Can hardly Expect to begin the Powder Magazine this year, but shall take all the Care we can when it is About that this Building when done shall not exeed [*sic*] the Estimate it was Computed at, if Possible. Powder Magazine the season too far advanced orderd to begin it his Year.
